

## **LSE - 01 Introduction to Economics**

### **About this unit**

The BSc Management program (Standard Route) consists of twelve units and you can study four units per year (see below the lists of the **Foundation** and **Further units**). Here next you can read some details of this unit and then shortly about studies generally.

#### **Introduction to economics**

##### *Aims and objectives*

- To introduce students to an understanding of the domain of economics as a social theory.
- To introduce students to the main analytical tools which are used in economic analysis.
- To introduce students to the main conclusions derived from economic analysis and to develop students understanding of their organizational and policy implications.
- To enable students to participate in debates on economic matters.

##### *Learning outcomes*

On completion of this unit, students should be able to:

- demonstrate an understanding of the main economic models used in economic analysis
- be able to assess their potential and limitation
- translate problems which are described in daily language to the language of economic modeling
- apply the models to solve these problems.

#### **Generally about the studies:**

##### **Tuition to the LSE Management program**

Once you have registered and received your study material from London School of Economics you are on your own until the examinations take place. Yet to structure your own time and studies can be difficult.

That is why MKFC Stockholm College offers you tuition so you can get the most out of your external studies at London School of Economics.

MKFC Stockholm College is using an e-learning platform that makes it easy for every student to follow the syllabus, receive tuition and interact with other students no matter where in the world the student may be.

Each student will also get individual teacher feedback and tuition during ten months per year. Our goal is to improve the skills through tuition so the student passes the examinations and receives a degree from one of the finest universities in the world within the planned timeframe.

The aim of the range of units available is to look analytically and critically at management issues, whilst developing your logical reasoning abilities. As a student you will develop critical skills for a wide range of real world professional situations, as well as get excellent preparation for a career in management consultancy or general management.
